DULA Doctorate Syllabus
DSP 812, AOM-Pharmaceutical Interactions

COURSE INFORMATION
Course Number, Title: DSP 812, AOM-Pharmaceutical Interactions
Number of Hours/Units: 40 hours/4 units
Prerequisites: None
Course Schedule: [type your class day and time in here, for example: Thursday, 10AM-1PM]
Course Instructor (email): [type your name, degree title and email address in here, for example: xxx, L.Ac., xxx@dula.edu]
Instructor Office Hours: [type your available time to meet outside of classroom hours, for example: “After class, or by appointment”]

COURSE DESCRIPTION
This course considers the emerging body of evidence around drug-herb interactions, which is a concern that affects the larger cultural domain in which this medicine is practiced and may have historic implications in the progress of this profession. The potential interactions between Oriental Medicine herbs/formulas and pharmaceutical drugs have increasingly been a topic of concern to many people today as a result of collaboration between Oriental and Western medical modalities. This course addresses the different aspects of herb/formula/drug interactions, ranging from complementary to toxic. Upon completion of this module, students will understand the pharmacological nature of medicinal herbs/formulas, demonstrate knowledge of potential interactions between medicinal herbs and pharmaceutical drugs, and demonstrate enhanced case management skills regarding management of drug-herb interactions.

LEARNING OBJECTIVES
■ To understand the pharmacological nature of medicinal herbs/formulas
■ To demonstrate knowledge of potential interactions between medicinal herbs and pharmaceutical drugs
■ To demonstrate enhanced case management skills regarding management of drug-herb interactions
■ To have advanced discussion of the theory and application on selected common diseases or problematic diseases
■ To enhance knowledge of the diseases in both traditional Chinese medicine and conventional medicine
■ To identify pathophysiological keys of selected cases from conventional medicine and alternative and complementary medicine aspects

DULA DAOM Syllabi 12/18 v.1
CORRELATION OF THE CLASS TO THE DAOM EDUCATIONAL OBJECTIVES

( ) Competently apply the advanced diagnosis and treatment skills of the program’s core Oriental Medicine curriculum
( ) Demonstrate competency in critical application of evidence-based medicine towards research, scholarship, and patient-care
( ) Demonstrate competency in application of advanced Traditional Korean Medicine theories and modalities within the program’s specialty
( O ) Demonstrate ability to educate others in Acupuncture and Oriental Medicine
( O ) Demonstrate competency in integrative medical practices to advance Oriental Medicine and effectively collaborate on patient care with other healthcare systems
( O ) Demonstrate competency in engaging in “best practices” in patient-centered clinical management

DULA DAOM Syllabi 12/18 v.1
### Out-of-classroom work:

To successfully complete the course, student is also required to plan studying minimum of 2 hours out-of-class for each 1 hour of academic in-class hour; and half an hour out-of-class for each hour of clinical training.

Read and analyzes the required texts and various references including published scientific articles, papers, case study reports, related to the topic that you learnt in the class and also for the topic of the following week class. Student’s critical thinking, opinions and discussions in each of the following classes are important as part of the learning process in the doctoral program.

### Midterm Assignment:

Oral Presentation: Project Paper Presentation 1

Student select one interest topic related to this class and review various scientific papers, case study reports, references related to their selected topic. Student then do their comparison analysis and reflect their idea for the application to approach current clinical practice, challenges and possible future development as their project paper. This project will then be presented in the class followed by Q/A and discussions will be conducted among students and instructor.

### Final Assignment:

Oral Presentation: Project Paper Presentation 2

Student select one interest topic related to this class (different with their first project) and review various scientific papers, case study reports, references related to their selected topic. Student then do their comparison analysis and reflect their idea for the application to approach current clinical practice, challenges and possible future development as their project paper. This project will then be presented in the class followed by Q/A and discussions will be conducted among students and instructor.

<td>(fail) Unsatisfactory completion of coursework.</td>
</tr>
<tr>
<td>W</td>
<td>(withdraw)</td>
</tr>
<tr>
<td>I</td>
<td>(incomplete)</td>
</tr>
<tr>
<td>IP</td>
<td>(in progress)</td>
</tr>
</tbody>
</table>

Please reference the DAOM Catalog for more information regarding the University’s grade point system.

### ATTENDANCE POLICY

University policy requires that attendance is factored in as at least 10% of a student’s final grade. Students with more than 2 unexcused absences will be considered to automatically fail a course, and 3 marks of tardiness will be counted as 1 absence.

Please reference the DAOM Catalog for more information regarding this policy.

### ACADEMIC DISHONESTY

Academic dishonesty includes providing or receiving answers from other students during or after an examination, plagiarism, knowing use of illegally copied educational material in any format, using informational aids such as "crib sheets" or other types of notes during an examination (if not allowed), or anything else that might reasonably be construed as cheating. Students who are found to be academically dishonest will automatically receive an "F" in that particular course and are subject to dismissal or suspension for 1 quarter, and may be placed on administrative probation.

### STUDENTS WITH DISABILITIES

Dongguk University Los Angeles is committed to providing support services to achieve equal access to the education experience. The Student Services Coordinator is available to provide assistance for students who exhibit significant

---

DULA DAOM Syllabi 12/18 v.1
difficulties due to a disability. DULA will support students to understand his/her limited abilities and compensate for them with ADA accommodations and alternative resources as well. Registration for assistance from the Student Services Coordinator is on a voluntary, self-identifying basis. However, services are only available after a student has registered and presents current documentation of the disability from an appropriate specialist or physician. All information and documentation are confidential.

Please refer to the DAOM Catalog for more information regarding this policy and procedure.
